

4.0 Environment Policy

Coopers Fire Limited supplies automatic fire and smoke curtains which are fully tested and certified for the latest fire regulations and building design technology.

The Directors, Management and all employees are committed to the care of the environment and the prevention of pollution.

The company ensures that all its processes are carried out in conformance with all relevant legislation and other requirements. The company seeks to minimize waste arising, promote recycling, reduce energy consumption for end users, reduce harmful emissions and use of environmentally friendly packaging materials, and where possible, to work with suppliers and subcontractors who themselves have sound environmental policies.

An essential feature of the environmental management system is a commitment to improving environmental performance. This is achieved by setting annual environmental improvement objectives and targets which are regularly monitored and reviewed. The objectives and targets are publicized throughout the company and all staff are committed to their achievement.

In order to ensure the achievement of the above commitments, the company is implementing an environmental management system, meeting the requirements of BS EN ISO 14001: 2004.

This Policy and the obligations and responsibilities required by the environmental management system are communicated to all employees and others working on behalf of Cooper Fire Limited. The Policy is available to the public on request.

A handwritten signature in blue ink, consisting of a large, stylized initial 'A' followed by a long, sweeping horizontal line.
